Main Admin Panel

Purpose: Central control for the entire system.

Key Work/Features:

1)Manage overall app settings, roles, and permissions.

2)Create, edit, or remove users (teachers, students, staff).

3)View analytics and reports (usage, revenue, student progress).

4)Handle subscription plans and payments.

5)Approve/monitor all other panels' activities

Teacher Panel

Purpose: Tools for teachers to manage teaching and exams.

Key Work/Features:

1)Create and upload course materials, lectures, assignments.

2)Schedule and conduct live or recorded classes.

3)Prepare, upload, and grade examinations or tests.

4)Communicate with students (chat, announcements).

5)Track attendance and student performance.

Job Posting Panel

Purpose: Post and manage job/internship opportunities.

Key Work/Features:

1)Create and edit job postings with details (role, eligibility, deadline).

2)Manage applications and shortlist candidates.

3)Communicate with applicants or send updates.

4)Track job post status (open/closed, filled).

Customer Care & Interested Candidate Communication Panel

Purpose: Support and communication hub.

Key Work/Features:

1)Respond to inquiries from students, parents, or recruiters.

2)Handle complaints, feedback, and technical issues.

3)Maintain chat/email ticketing system.

4)Send automated or manual notifications to interested candidates (e.g., exam dates, job openings).

Student ID & Plans Management + College & Examination Management Panel

Purpose: Manage student profiles, subscriptions, colleges, and exams.

Key Work/Features:

1)Generate and manage unique student IDs.

2)Enroll students in chosen plans or courses.

3)Track payment history and plan renewals.

4)Manage colleges/institutes linked with the platform.

5)Create exam schedules, assign exam centers, publish results.

6)Monitor student attendance and academic progress.
